CAREER OBJECTIVE

Electronics and Communication Engineering undergraduate aspiring to build a career in VLSI and chip design. Possess hands on experience in esp32/Arduino-based projects, Python programming, and digital electronics

EDUCATION

Qualification	Institution	Year	Score
B.Tech – Electronics & Communication Engineering	J8 Institute of Engineering & Technology	2023–2027	CGPA: 7.33/10
Intermediate	Narayana junior college	2021-2023	94.6%
SSC-class X	Zilla parishad high school-BHEL	2021	10%

TECHNICAL SKILLS

- Programming: Python (Basic), MATLAB
- Hardware Description Language: Verilog
- EDA Tools: Xilinx Vivado, Arduino IDE
- Core Concepts: Digital Electronics, Embedded Systems
- Hardware: ESP32-CAM, Arduino

PROJECTS

- **AI-Based Smart Traffic Management System using ESP32-CAM**
Developed an intelligent traffic monitoring and control system using the ESP32-CAM module and AI-based image processing techniques.

4-Bit Arithmetic Logic Unit (ALU)

Design and implement a 4-bit ALU in Verilog capable of performing arithmetic and logical operations such as addition, subtraction, AND, OR, XOR, and NOT based on control signals.

Achievements

- Participated in inter-college cricket tournaments and demonstrated teamwork, leadership, and competitive sportsmanship.
- Selected for district-level cricket probables, showcasing strong performance, dedication, and consistency in competitive cricket.
